

# Safe Insight FAQs - FREE Training

## Do You Really Offer FREE Training?

YES! We think anybody that chooses to own a firearm should, at a bare minimum, understand how to safely handle and store the gun securely.

For those that still don't know which type of firearm is right for them, we offer training on selecting your first firearm as well.

We also teach the basics of the following with both revolvers and semi-automatics:

- Loading
- Unloading
- Cleaning
